## EXPERIENCE & CAPABILITY

### Our Experience

SafetyCo's quantitative fit testing team is lead by George, our Senior Site Services Manager. Combining his decades worth of experience across all aspects of site services, safety, PPE and quantitative fit testing he brings a wealth of knowledge to each project. With clients ranging from A-tier construction companies working on major infrastructure projects to medical devices manufacturers, SafetyCo has a tailored approach to every project we undertake because each business has different needs.

Whatever your requirements are, our team possesses the expertise to be able to cater and deliver.

# 02.2

## EXPERIENCE & CAPABILITY

### Our Approach

Our passion and commitment is not only for people's safety but the people themselves. We recognise that, in order to be the best at what we do, we need to dedicate our efforts and services to nurturing a relationship with our clients, ensuring we are continually working towards the same target.

### Operational Excellence

As our industry evolves, and so do we. SafetyCo strives to provide excellent services and solutions by continuing to improve on already high standards, while setting better standards across the field. Our aim to support our clients as much as possible by meeting their needs promptly.

### Stability & Scalability

With an abundance of existing clients and increasing trend of compliance requirements across all industries, we are expecting to grow more as our services improve. To meet these demand that will continue to grow exponentially, we've set out to train more specialists, create more support systems, and expand our reach. Our goal is to provide our current and potential clients with easy accessibility and peace of mind.

### Compliance & Sustainability

Industry codes and practices are strictly adhered to with a high standard of compliance to Chain of Responsibility (CoR). Safety is our priority inside and out. We pride ourselves on using recyclable packaging wherever possible.

### Our People

It's our people and our culture that keep our company at it's peak performance. The experience we have allows for greater growth and expansion while our culture facilitates a productive, safe, and positive environment. This allows for us to retain the right people. Our team is motivated, driven and most importantly empowered to find solutions internally and externally.

# 03

## INTRODUCTION TO SAFETYCO

SafetyCo adds value by bringing top-tier quality, and attention to detail when it comes to work health and safety.

Our team is able to do this because we are equipped with the latest innovative technology, targeted knowledge for health and safety compliance requirements, flexible mobile services with consistent protocols, and a passion to provide the best experience possible.

Our aim is to empower workers with the confidence to go in to any site or workplace environment, ready and protected.

SafetyCo was established to meet the needs of a consistently evolving industry. We specialise in Quantitative Fit Testing, ensuring compliance with Australian New Zealand Standard AS/NZS 1715:2009 whilst delivering a bespoke service to every customer.

Regardless of sector, SafetyCo has the ability to scale to our clients needs and requirements. With experience and established clients across the construction, mining, health and aged care sectors we pride ourselves on our ability to deliver across all verticals. We are passionate about providing the solutions required for every business.

04

## OUR VALUES

### **Safety**

Uncompromised dedication to initiating and maintaining a safe workplace environment.

### **Accountability**

We hold our accountable for our actions and make sure protocols and due processes are kept accordingly.

### **Integrity**

All of our services, products, and interactions are honest. There is no room for compromise or hiding when it comes to people's safety.

### **Flexibility**

Our response time is second to none when it comes to the needs of the industry with the resources to meet the needs of our clients.

### **Innovation**

We are leaders in providing innovative solutions and customised solutions when it comes to the requirements of our clients.

Some of the key markets that highly benefit from our products and services are:

- Medical**
- Construction**
- Mining**
- Education**

# 06

## PEOPLE AND CULTURE

SafetyCo is equipped with a highly experienced, dedicated team, that is absolutely passionate about everyone's safety.

The experience we have allows for greater growth and expansion while our culture facilitates a productive, safe, and positive environment. This allows for us to retain the right people. Our team is motivated, driven and most importantly empowered to find solutions internally and externally.

We are an independent Australian-owned business, committed to providing services of the highest quality and will never drop our standards because we know that people's lives depend on it. Safety training and development is of utmost important in maintaining the highest of standards.

Our company values are not just a superficial mantra but ethics in which we build the foundations of our business and it's evident our interactions. Our workplace encourages an open, honest, and respectful culture.

07

## ONBOARDING

We've made it simple to implement our services and products seamlessly and have seen this transition through for our countless times. Our system consist of clear protocols and processes that make the whole experience easy.

We have a highly skilled operations team that welcome the opportunity to work with new clients to produce the result they desire and help them understand the importance of the work they are partnering in.
